

PUBLISHERS' WEBSITES

Some Bookstore Requests:

1. The bookstores request that you **not** order "E-Books" as they don't sell. Students can access these themselves.
2. It is hard for bookstores to buy books from overseas (Britain, Australia, etc.) and then to return them. It doesn't always work so they are asking that you buy **only** books from United States publishers or who have United States distributors.
3. One bookstore will not buy back old edition texts (2nd, 3rd, 4th, etc.) that you may be using in your classes (they say there is no resale value). They will **only** buy back the latest edition, so please try to use the latest edition.
4. Texts from Barnes & Noble, Inc. **can only be bought by individuals** from Barnes & Noble. Your students will have to purchase their own texts from them.
5. Texts that you want that you find are "Out of Print" can be purchased online **only** if they are still available from a source such as Amazon.com, Barnes & Noble, etc. and usually cannot be bought at the bookstores unless you have used them the previous semester. Please be aware that these online sources **may run out** before your students can buy them, so please keep your orders for these to a minimum.
6. Per department policy, exclusive book orders for one bookstore can **only** be used for classes with an estimated enrollment of 15 or less. All other book orders will be sent to all 3 bookstores.
7. Additions or deletions to book orders can be made at **any** time as long as you have sent in a preliminary order **by the deadline**.
