

Description of original assignment from spring 07 syllabus:

Photographic **Storyboard** (75 points)

1. *This assignment will allow you to apply the concept of camerawork, lighting, composition and plotting while practicing storyboard format.*
2. *Take photographs, develop or print them, and arrange them in a storyboard format that tells a coherent story.*
3. *Each photo should have two lines of description-one should tell the part of the story illustrated by the photo and the other should identify the type of shot in the photograph (e.g. establishing shot, ELS, CU, OSS, Shot-Reverse Shot, etc.)*
4. *You should have at least 7 different camera angles, distances, and effects among your photos. There is no maximum number of photos.*
5. *Arrange the photos in consecutive order on 8 1/2 x 11 paper. Staple your pages together.*
