

Burning Data CDs or DVDs on a Mac using Toast

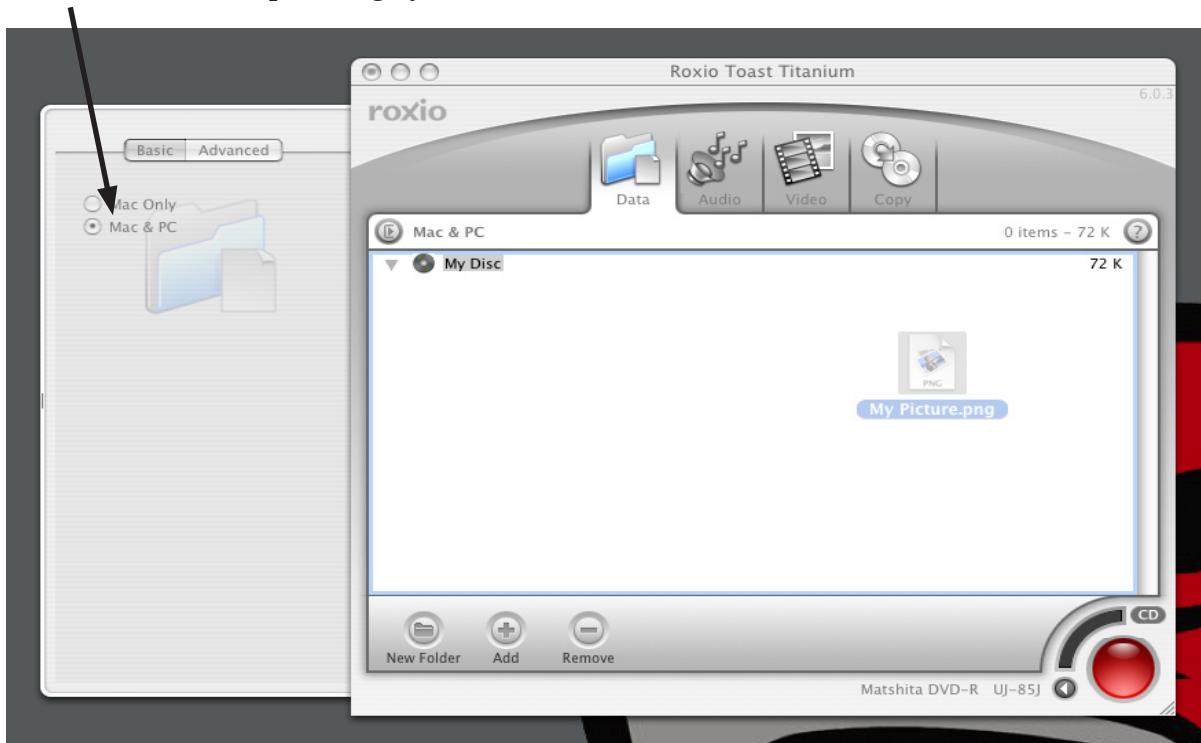

Follow the steps below to burn files to a CD.

1. Open Roxio Toast Titanium located in the left end of the dock.

2. Drag and drop the files into the Toast window.

Note: Click Mac & PC if you want your disc to work on both operating systems.

3. Once you have added the files to burn, click the large red button. A new window will open.

4. Then enter your blank CD-R or DVD-R when prompted and press **Record**.
