

LeaderShape 2003 Application Packet

What is LeaderShape?

LeaderShape Miami is an intensive, energizing, and unique six-day educational experience designed to develop students' ability to lead with integrity and impact their surrounding community. Each session is comprised of approximately 60 students with a variety of experiences and backgrounds.

At LeaderShape, participants create a "LeaderShape Vision" which is a statement of purpose that describes a picture of where they want to be in the future. This vision can include personal change on many levels and can also encompass the aspirations and development of entire organizations and communities. After students return from LeaderShape, they are energized and empowered to make their vision a reality on Miami's campus and within the surrounding community.
